

## POLYSIL CLB

# POLYSIL CLB

**POLYSIL CL – B** is a relaxant micro silicone emulsion, which was developed for polyester, cotton, T / C, T / R and Rayon. Gives a very soft grip, anti-wrinkle effect (anti Crismark), Tensile Strength and improving slip on polyester fabric, suiting fabrics mainly to give "SPRING EFFECT" next to it also compatibility with bleach optic and other resin finish.

**POLYSIL CL – B** is free from APEO and Formaldehyde

### CHARACTERISTIC

Appearance	: Bluish clear liquid
pH	: 4.5 – 5.5
Composition	: micro Emulsion Silicone
Ionic	: Non ionic
Solubility	: Readily dissolves in cold water
Compability	: Excellent with resin cure Excellent with optical brightening agents

### APPLICATION

#### Exhaust system

- For the polyester fabric : 5 – 10 gr / Ltr
- For fabric T/C,T/R, RAYON & COTTON : 10 – 20 gr / ltr

#### padding system

- For the polyester fabric : 1 % solution
- For fabric T/C,T/R, RAYON & COTTON : 1 – 2 % solution

### PACKING

**POLYSIL CL – B** was packed by iron drum of 200 kg

Jalan Pluit Timur Blok G Utara No 19.  
Jakarta Utara - Indonesia.
